Date: December 20, 2016

Circular Ref. No : 2017/2016

All Members,

### **Sub: Adjustment of Futures and Options contracts in the security Engineers India Limited (ENGINERSIN)**

In pursuance of Byelaws of NSCCL pertaining to Clearing and Settlement of deals, SEBI circular reference SMDRP/DC/CIR-8/01 dated June 21, 2001, Circular no. 1941 (Download no. NSE/CMPT/32219) dated April 15, 2016 and Circular no. 110/2016 (Download no. 33840) dated December 19, 2016 members are hereby informed the procedure for adjustment of Futures and Options contracts in the underlying security Engineers India Limited (ENGINERSIN), on account of Bonus Issue in the ratio of 1:1.

The 'adjustment factor' for the corporate action shall be 2 and the ex-date for the corporate action shall be December 30, 2016. The following action would be taken by NSCCL in this regard.

#### **1 Action by the Clearing Corporation in respect of Futures Contracts:**

All open positions in Futures contracts with the underlying security as ENGINERSIN existing after End of day on December 29, 2016 will be adjusted as under:

**Positions:** The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot. The adjusted market lot shall be as per the Circular no. 110/2016 (Download no. 33840) dated December 19, 2016.

**Futures Price:** The adjusted futures price would be based on the Settlement price of the relevant futures contracts on December 29, 2016. Adjusted futures price shall be settlement price of relevant futures contracts on December 29, 2016 divided by 'adjustment factor'.

**Adjusted value:** In order to avoid difference arising due to rounding off of adjusted settlement price, the carry forward/adjusted value shall be computed by multiplying pre adjusted futures long/short quantity with pre adjusted settlement price. Accordingly, all positions in futures contracts with the underlying security as ENGINERSIN would be marked-to-market on December 29, 2016 based on the daily settlement price of the respective futures contract. Further, the adjusted positions would be carried forward at the adjusted value.

From December 30, 2016, daily mark to market settlement of futures contracts with the underlying security as ENGINEERSIN would continue as per normal procedures.

Begin of day margins on December 30, 2016 would be computed for the futures contract with underlying as ENGINEERSIN based on the adjusted carry forward value. Subsequently, intra-day margins would be computed based on the relevant traded prices at the time the intra-day span risk parameter files are generated.

An example of adjustment of futures contract is detailed hereunder:

## 2 Action by Clearing Corporation in respect of Options Contracts:

All open positions in Options contracts with the underlying security as ENGINEERSIN, as existing on December 29, 2016 shall be adjusted as under:

Strike Price: The adjusted Strike Price shall be arrived at by dividing the old strike price by the 'adjustment factor' i.e. 2.

Positions: The adjusted positions shall be arrived at by multiplying number of contracts in the pre adjusted position by the adjusted market lot and continue to exist in the new adjusted strike prices. The adjusted market lot shall be as per the Circular no. 110/2016 (Download no. 33840) dated December 19, 2016.

An example of the adjustments in the strike prices is detailed hereunder:
